1. On 21 May 1952 the government-operated sulphuric acid plant at Nanning formally began operation and production. This plant was formed by the amalgamation of the Liuchou Sulphuric Acid Plant and the Nanning Chung Hua (0022/5478) Sulphuric Acid Plant, and is subordinate to the Department of Industry of the Central and South China Military and Administrative Committee.
2. This plant now is located outside the South Gate of Nanning, but maintains a business office at No. 70 Shang Kuo (0006/0948) Street, Nanning.
3. The plant has two acid-preparing chieh ch'u chi (2234/6051/2894)¹, and produces a total of approximately 4,000 bottles monthly of sulphuric, nitric and hydrochloric acids. These acids are used primarily to supply the foundry and chemical engineering businesses at Liuchou, Kweilin and Nanning.
4. This plant is unable as yet to supply the requirements of the Central and South Plant [] at Liuchou, which still operates its own plant for its heavy demands for acids.
